### **What is your idea / business and to whom is it addressed?**

Electronics is an example of created needs, so we are focusing on making electronic Parts, repair and Design with a competitive advantage. Eg Alarm coffee maker, digital electronics parts, extensions and devices. There is a growing market for electronics as the more complex electronics becomes the more complex the components. So our short term goal is to target theses gaps and long term goal will be to focus on innovating the standard model of a digital device.

### **How should the idea/business earn money?**

By manufacturing in asia and selling globally at a competitive price.

### **At what stage is the idea / business at the moment?**

We have created the business and financial plan

### **What do you need?**

We need investors
