What is your idea / business and to whom is it addressed?

My idea is to my world pollution free and for this we need to unite and work together in each part of our world by campaigns, by sponsors, by giving resources for production and knowledge for development of our better future of our world

How should the idea/business earn money?

By selling our brand worldwide and giving our parts, services and also other resources with income in money as well a healthy world.

At what stage is the idea / business at the moment?

My idea is at a stage as a baby in a womb and as attractive as a blooming flower
