

## **GEO SOURCE ELECTRICITY&NBSP;**

Location of the investment: **Gurgaon, Indie**

Publication: **11.02.2020 19:42**, no. of the advertisement: **1273**

### **What is your idea / business and to whom is it addressed?**

In the Himalayas in India and ice area of the Nordic countries, near North Pole, Antarctic are have low temperature below 0 or 0 degree celsius but the tube well or bore well water from under ground is 20 to 22 degree Celsius means we have minimum 20 degree centigrade temperature difference with this temperature difference I have run a carbon dioxide Rankine cycle, which have a turbine and generator to get electricity. in the tropical areas, hot atmosphere areas or countries, where around 45 Celsius, this machine will work in the reverse direction to generate electricity

### **How should the idea/business earn money?**

Selling electricity

### **At what stage is the idea / business at the moment?**

Prototype

### **What do you need?**

Funds /investment
