What is your idea / business and to whom is it addressed?

I need financing to purchase multifamily buildings with positive cash flow. The extra revenue pays for loans and still leaves income for my business.

How should the idea/business earn money?

The extra revenue pays for loans and still leaves income for my business.

At what stage is the idea / business at the moment?

What do you need?

I am needing \$250,000 initially for the first few buildings. The acquisition will take a couple of months while I find further buildings. End result is that my business will have 1000 "doors" under management.
