What is your idea / business and to whom is it addressed?

We are e-Business Project Consultants running a Virtual PMO that manages delivery of e-Business Solutions to Corporate Organisations in Africa

How should the idea/business earn money?

There is a need for Companies to modernize their business systems in line with Digitalisation era of the 4th Industrial Revolution. To help such companies we therefore provide Project Professional Services and IT products that are needed in Analysis of businesses and managing implementation of e-Business solutions. We will therefore charge for such.

At what stage is the idea / business at the moment?

Start up

What do you need?

Working capital
