What is your idea / business and to whom is it addressed?

Currently i have retails and wholesales shoes and tshirt business. Now i am plan to venture food business. Looking for investor for working capital.

How should the idea/business earn money?

In malaysia market there's no local chain restaurant with economy price. Im planning to sell food at the economy price and believe it will bring fast cash flow because the economy environment is slow while cost of living rising. Many people now looking for economy goods and economy foods is the opportunity.

At what stage is the idea / business at the moment?

Currently the food business still in progress. We just setup the menu and price. Soon will open a small shop in kuala lumpur

What do you need?

I need working capital around 30,000 usd or 50,000 usd
