What is your idea / business and to whom is it addressed?

My bussiness is to help people who is stranded with their vehicle nexc to the road. Insured cars and non insured cars to assist the client to get to a safe place and out of harms way. To take the vehicle to the nearest approved dealer or mechanic to repair it my job would be pickeing up the vehicle and dropping it off and to ensure i can also accomodate the client to the nearest place to be assisted from.

How should the idea/business earn money?

The bussiness will earn money from all insurance brokers and clients who pays cash after delivery. And from small bussinesses if they want to transport goods from point a to point b.

At what stage is the idea / business at the moment?

Just started as i have sold my car to buy the bakkie to start off with.

What do you need?

I need a small capital to buy me a truck and a small premises to store vehicle or goods overnight ensuring it would be safe intil its delivered. And money for feul for the first month or so .
