### **What is your idea / business and to whom is it addressed?**

My business is a transportation business involved in transporting limestone and other quarry materials like manganese to companies for further processing. Currently, I already have a contract to transport the limestone to CIMAF, a cement producing company in Tema. With this investment in the business, I shall employ about 8 people to begin with and further increase the number over a period of time. My business is geared towards transporting the materials to the companies for onward processing.

### **How should the idea/business earn money?**

With the contract, the companies will pay for the services rendered for them .And because I will deal with companies and on a contract bases, the cash flow shall be constant.

### **At what stage is the idea / business at the moment?**

I have a business proposal of the business. I have done a little transportation with other vehicles.

### **What do you need?**

One million USD
