

INVEST IN PROJECT WILL OF GOD

Location of the investment: **Indonesia**

Publication: **16.03.2020 06:19**, no. of the advertisement: **1711**

What is your idea / business and to whom is it addressed?

My idea is using the Bible as the source of Moral Education. Up until now, there hasn't any moral education based on the Bible available on Android and iOS. We believe that we are the first in this field. A lot of startup will be coming to create a copycat about Moral Education based on the Bible. But our startup will dominate most of the users. We have talented team of Catholic theologians and Flutter programmer. We have made the prototype. We also have done the 3 important steps in startup: 1. Idea Validation; 2. Customer Validation; 3. Market Validation. Please invest in us.

How should the idea/business earn money?

By implementing cheap and affordable subscription fee from \$0.36 - 1 per month based on countries economic condition. For example: India, Indonesia and China will have fee around \$0.36. Meanwhile it will be \$1 in Australia. By using this way, we believe it will encourage millions of users to subscribe. The profit potential will be \$11.6 Million up to \$48 Million per year for 0.1% of 2.7 billion of Christians in the world.

At what stage is the idea / business at the moment?

At the stage of prototype. Here is the link: <http://bit.ly/HaD84>

What do you need?

We need investment US\$1.5 Million for equity split of 50%.
