

FIRST ROUND FUNDING

Location of the investment: **Canada**

Publication: **22.05.2020 01:15**, no. of the advertisement: **2269**

What is your idea / business and to whom is it addressed?

We are a FinTech holding company. We are issuing 30 million Kouras for the first stage of funding at \$0.65 per Koura. A Koura is a New Asset Class that is equity of our company that is tradable and it is also a currency at the same time utilizing blockchain technology. It is not a cryptocurrency. It is a digital asset. It pays an annual dividend. Our business is ground breaking and you can get in the early stages of this unicorn now.

How should the idea/business earn money?

. The New Asset Offering will be in the beginning of next year and the Koura will start trading at \$1 at the open. If you invest in the Koura now you easily make at a minimum 35% return and around 40% to 80% per annum. I advise you to take a serious look at the information.

At what stage is the idea / business at the moment?

First Round Funding
