What is your idea / business and to whom is it addressed?

EADfix, a Ghana-based Tech platform, connects customers with verified service providers across different industries as it seeks to meet the growing demand for convenience, reliability and speed I am founder of EADfix App. Launched in 2020. We are great because our service platform is the future of business technology. I have currently invested \$10, 000 in the business to date. The Company is called EADfix TECH. The team is made up of myself as the founder, CTO who manages our Service App platform, Graphic and Animation Designer with 5 professional Marketers. Our Target market is men and women age 18- 50 , who are middle and high income earners in Ghana. We currently have 210 verified service providers and 117 Customers who have signed up to our platform. We are raising \$87, 000 which will be spent on furnishing the company, marketing, recruiting, paying of salaries for the next 6 months and buying of company car for marketing.

How should the idea/business earn money?

Through commission, Advertisements, and Customization We hope to hit GHC 418, 253 ie. \$72, 209 revenue end of 2021 and GHC 1, 128, 768 ie. \$194, 875 end of 2022 with equity and liabilities of GHC 1, 408, 517 ie. \$243, 172 at the end of 2021 and GHC 2, 618, 517 ie. \$452072.56 at the end of 2022
