After I was scammed and lost everything I can't seem to get back on my feet. I have literally no money so I'm turning down work cause I can't afford to fix my truck and get new equipment. I received a loan from Cash Flow LLC which i was directed by a friend i paid only just processing i received my loan. I'm not a druggie or some stupid shit. I'm an honest white working Turkish man trying to support my family. If you want financing contact: industrialtd@consultant.com
