What is your idea / business and to whom is it addressed?

Am starting a farm of dairy farming, and banana plantation. It is addressed to the public since everyone can be my customer.

How should the idea/business earn money?

Milk and bananas are consumed worldwide. Their market and consumption aren't seasonal. It's staple food in my country and it's consumed by every age. Selling factories, offices, companies, events, schools, universities can generate income.

At what stage is the idea / business at the moment?

Am startup although I have started generating small income out of milk due to less income and space ,

What do you need?

Capital to buy more land and truck to extend and transport my products to different markets.
