What is your idea / business and to whom is it addressed?

Cannergrow is a Swiss medical cannabis growing company. It was founded by one family in Zurich. The company allows one or more planting sites, these sites are yours for as long as the company operates, so to speak for a lifetime. You get an invoice in the purchased place by mail and maximum insurance against floods, fires, pesticides, thefts and more ... So, I repeat, everything is insured and in the case of failed planting all the money is returned to investors, no this is not a marketing trick, everything is can check at the firm. One planting site is 500euro. One place makes a profit every 8-10 weeks, approximately 70-100 euro per harvest. The company has a limited number of planting sites, with 3,000 planting sites remaining in Switzerland! A 20,000m2 Greenhouse in Macedonia is soon opening, and a large 320,000m2 hangar is also opening in the UK. The company is 2.5 years old and the largest distributor of medical cannabis in Europe. The places purchased can be sold further. Payments and payments are made through the bank, everything is taxed, securely from account to account. When you buy you get an invoice that you can attach to the Tax Inspectorate and pay your profits peacefully! It can also pay off in Bitcoin, for the additional ability to collect bitcoins and do business in non-EU countries. The company also offers affiliate programs who want to partner with a company and make great money with a stable and secure company. Every planting is secured, the company has all the licenses for cultivation and every business with the same is maximally legal and there is no fear of non-legal business. It is a tremendous opportunity for everyone to invest and profit from the billionaire market that is growing day by day. There is a greater demand for medical cannabis than production and distribution, so Cannergrow aims to have 3-4 more planting locations by the end of 2020 and help people who need oil and the like to heal. If you are interested in investing and are interested in these company details and the like, I can send you all the promotional material below, as well as an explanation of the video and an English presentation. Also, in the description of my profile you have a link for free registration where after completing a short and easy registration you will find all the necessary materials as well as a marketing plan of the company. This is a phenomenal opportunity and I am looking for investors and people for collaboration to spread this great story and opportunity to make money through network marketing!

How should the idea/business earn money?

One planting site is 500 euro. One place makes a profit every 8-10 weeks, approximately 70-100euro per harvest.
