### What is your idea / business and to whom is it addressed?

I want to create a fast food chain that serves the population in bringing a healthy option on the go and educate people in healthy eating which will lure people away from the unhealthy food chains with the mission to reduce the population of obesity.

### How should the idea/business earn money?

The business will be based on the system McDonald?s uses by franchising restaurants and leading the land to franchisees and selling healthy fast food

### At what stage is the idea / business at the moment?

Our project is currently on paper with a business plan from our target audience, business systems, floor plans for our stores, management systems and more.

### What do you need?

I?m currently looking for a partner who has the same mission and Goals as me and is just as passionate about being healthy and educating as many people as possible on healthy lifestyles. I also require investing in my project to get our first store open
